4.4 Grading Scheme and, if available, grade distribution guidance

The grading scheme used by the University is based on percentages. Components and modules are given a mark between 0% and 100%; in cases where a module is assessed on a Pass/Fail basis only the mark column in Section 4.3 will be blank.

The module pass mark is 40% in respect of Levels 3, 4, 5 and 6. The 40% pass mark also applied to Level 7 modules registered in years prior to 2019/20, with a 50% pass mark adopted for Level 7 modules from 2019/20. In respect of the information shown in 4.3, this means that Level 7 modules with a 'year' prior to 2019/20 were subject to a 40% pass mark and Level 7 modules with a 'year' from 2019/20 were subject to a 50% pass mark. This change in pass mark simply reflects the adoption of a new set of Level 7 marking criteria which aligned the pass threshold to a higher numerical mark (50 rather than 40). The standard of work required to achieve a pass did not change as a result.

The module pass mark for Level 7 modules on the MEng programme has been 50% since the programme began in September 2014.
